

# COMPUTER SCIENCE CAPSTONE PROGRAM

## CALL FOR PROPOSALS

**DEADLINE: October 15, 2024**

### OVERVIEW

The Computer Science Capstone is a culminating program within the Computer Science Department at Lehigh University, where student teams work with a sponsor over a year to complete a project. This program is mandatory for all students pursuing a Bachelor of Science degree in one of the following programs:

- **BS Computer Science**
- **BS Computer Science and Business**

### CAPSTONE EXPERIENCE

The Capstone Program serves as the pinnacle of students' academic journey at Lehigh. It provides them with a unique opportunity to apply their acquired knowledge and skills to real-world projects. Students collaborate with sponsors, working on high-impact initiatives that offer tangible benefits to the sponsoring organizations. The project runs for two semesters, starting in January and finishing in December.

### BENEFITS FOR SPONSORS

By participating in the Capstone Program, sponsors gain access to a pool of talented and motivated students. These students bring a fresh perspective and innovative problem-solving skills to the table. Collaborating with Lehigh students allows sponsors to:

- **Complete a project:** Team of 3-5 students will dedicate more than 1,000 hours to the project
- **Tap into top talent:** Work with some of the brightest minds in computer science
- **Contribute to education:** Support the development of future leaders
- **Retain all development:** Students sign an NDA (Non Disclosure Agreement) and all IP (Intellectual Property) is retained by the sponsor.
